Hein Htet, UI/UX Designer

UI/UX Designer with over 2 years of experience designing SaaS and digital products across Myanmar and Korean markets. A T-shaped designer skilled at turning user needs and business goals into intuitive, scalable experiences through research, collaboration, iteration, and AI-assisted design workflows.

EXPERIENCE

O2

2024.01 - Present

ITWIZARD (KOREA)

- Led the end-to-end design of web, mobile, and SaaS products, from discovery and user research to high-fidelity UI, prototyping, and developer handoff.
- Collaborated with clients, stakeholders, and engineers to translate business goals and user feedback into intuitive, scalable user experiences through an iterative design process.
- Established design systems and reusable components to improve consistency, streamline collaboration, and support efficient product development.
